SpaceKit ASTRA Investor Fact Sheet

Overview

- **Token Name:** ASTRA
 - **Total Supply:** 1.2 Billion ASTRA
 - **Blockchain:** SpaceKitVM (Quantum-Safe WASM Smart Contracts)
 - **Launch Status:** Testnet live, mainnet ~90% complete pending audits
 - **Core Philosophy:** Sovereign Data Ownership - *“You own your data.”*
-

Utility

ASTRA is the **native currency of the agent economy**, powering:

- **Gas Fees** - Smart contract execution, AI inference, storage, messaging
- **Staking** - Secure consensus, validator rewards, Sybil resistance
- **Marketplace Currency** - Buy/sell agent bundles, datasets, CDN content
- **Governance** - Vote on protocol upgrades, cryptographic standards, treasury allocation
- **Incentives** - Rewards for node operators and developers

Distribution Model (1.2B Supply)

Category	%	Tokens	Vesting
Team & Founders	20%	240M	4-year vesting, 1-year cliff
Investors (Equity + Strategic)	15%	180M	2-year vesting, quarterly unlocks
Pre-Sale Rounds	10%	120M	Tiered pricing, 6-12 month lock
Community & Ecosystem	25%	300M	Grants, hackathons, developer incentives
Node Incentives	15%	180M	Staking + reward pools
Treasury & DAO	10%	120M	Controlled by SpaceKit DAO
Liquidity	5%	60M	Exchange listings, liquidity pools

Pre-Sale Schedule

Pre-Sale Allocation

- **Total Pre-Sale Pool:** 120M ASTRA (10% of total supply)
- **Lockup:** 6-12 months depending on round
- **Vesting:** Linear unlock after lockup period

Pricing Tiers

Round	Price (USD)	Allocation	Notes
Seed (Private)	\$0.50	30M ASTRA	Strategic partners, node operators
Pre-Sale Round 1	\$0.65	30M ASTRA	Early community + developer grants
Pre-Sale Round 2	\$0.70	30M ASTRA	Broader retail participants
Final Pre-Sale	\$0.75	30M ASTRA	Limited allocation before listing

Target Listing Price: \$1.00+

Valuation Implied by Pre-Sale

Round	Token Price	Fully Diluted Valuation
Seed	\$0.50	\$600M
Round 1	\$0.65	\$780M
Round 2	\$0.70	\$840M
Final	\$0.75	\$900M
Listing	\$1.00+	\$1.2B+

Investor Highlights

- **Discounted Entry** - Early rounds offer significant discount with lockups to align long-term incentives
 - **Urgency & Scarcity** - Tiered pricing rewards early believers with better entry points
 - **Value Anchor** - Public listing aims to anchor ASTRA's value perception above \$1.00
 - **Equity Alignment** - Combined with equity raise (\$20M for 20%), positions SpaceKit for \$100M+ valuation at launch
-

Growth Flywheel

1. **Developers** publish agent bundles -> earn ASTRA
 2. **Users** consume AI services, storage, CDN -> pay ASTRA
 3. **Node Operators** stake ASTRA -> secure network + earn rewards
 4. **DAO Governance** allocates treasury -> funds ecosystem expansion
-

Strategic Positioning

- **Quantum-Safe:** Future-proof against quantum computing threats
- **AI-Native:** Smart contracts as intelligent APIs (LLM inference, compression, multi-agent coordination)
- **Identity-First:** DID + reputation-based compute allocation
- **Community-Driven:** Decentralized app store, modular packaging, sovereign data ownership
